### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: None of the prior art suggests, either alone or in combination, the instantly claimed invention for a label stripping apparatus, in particular the guide plate with its front lengthwise side bent downward to form a folded portion in an interior angle less than 90° and with its bending part formed with an arc-shaped front edge curved upward.

Roman shows a label dispenser for holding a plurality of label rolls side by side and having the general configuration of the instant apparatus but missing many claimed features including the aforementioned guide plate, a bottom base, a position groove in the sidewalls.

Severance also shows a multi roll label dispenser but missing the same limitations as Roman.

Martin shows a bent guide plate but it is not in the same geometric position as the instantly claimed limitations. Cole and Berg show label dispensers with guide plates of varying configurations. Li shows a tape dispenser with a cutting guide plate. None of these references could be combined with Roman or Severance to meet all the instantly claimed limitations.

In addition, Norgaard, Casper et al., and Lilly et al. are cited as additional examples of label dispensers.

Art Unit: 1734

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
